For Those Who Expect More Than Just a Flight

Today's elite travelers don't just want entertainment—they demand immersion. EMPIRE redefines what's possible in the air, blending state-of-the-art performance with unmatched elegance. While others retrofit outdated systems with modest upgrades, EMPIRE is purpose-built to deliver an uncompromising experience, from runway to cruising altitude.

Signature Features

- **Uncompressed 4K UHD Video up to 4096 x 2160 Native resolution @ 4k60** — No delay. No compression. Just breathtaking clarity.
- **High-resolution audio** — supporting - TIDAL, Quboz , Apple Music Audiophile resolutions, as well as other streaming services.
- **Instantaneous Switching** — No lag, no distraction, no black screens, just seamless transitions.
- **Refined Display Options:**
 - 4K UHD OLED Displays: 42", 55", 65" all one inch thick, no remote boxes to hide, one Cat6A cable, power, and ground required for installation.
 - LCD: 19", 22", 24" HDR10 Displays, one Cat6A cable and power required for installation.
- **Tailored Tiling Architecture** — Any source. Any screen. Any configuration.
- **Modern Connectivity Suite** — USB-C, SDI, HDMI supporting up to 4K60 video, Bluetooth 5.0 for HD Audio support, AUX Remote SMA—carefully curated for the modern cabin.

10G Ethernet Streaming - Future-ready for an 8K world

Beyond Expectations

Some systems adapt to the past. EMPIRE is built for what's next. Every component, every signal path, every display is chosen not just for performance—but for the refined sense of luxury it delivers. The result is a cabin environment no other system can emulate. It's not just better. It's beyond comparison.
